

ST. CYRIL SCHOOL

Policy Category: Registration/Admission
Subject: Admission Policy/Special Needs
Policy Number 9020

Policy:

The St. Cyril School program is highly academic and the school is departmentalized. Students move from one classroom to the next throughout the course of the day. Children are expected to organize and complete their assignments in a timely manner and to often work independently. Therefore, the educational program at St. Cyril School is limited in its ability to meet certain learning and/or behavioral needs.

Parents should consider carefully any special learning or behavioral needs of their child/ren in order to determine, in advance, if the St. Cyril program is able to provide proper and adequate instruction to meet such needs.

If a special need is identified after a child has been attending St. Cyril School, the principal, in collaboration with school resource personnel, will determine whether it is in the child's best interest to remain at St. Cyril School or to refer the student to a more suitable learning situation.

This policy shall be included with the Registration Packet for new students.
